

Material Safety Data Sheet

1. Identification of the Substance and of the Company Date of issue: January 2019

<p>Product Name: DRY CARPET CLEANER - Powder</p> <p>Code: TA - CC8 Contact: That's Awesome 57 National Park Road Nambour Australia 4560</p> <p>Email: info@thatsawesome.com.au Emergency Telephone Number: 13 11 26</p>	<p>Description..... Appearance..... Chemical composition..... UN Number..... Dangerous Goods Class..... Subsidiary Risk..... Packing Group..... Hazchem Code.....</p>	<p>Carpet & Entry Mat Cleaner A moist, granular substance with natural citrus fragrance Aqueous amalgam of anionic and non – ionic Organic Terpene hydrocarbons, with 1% alcohol amphoteric surfactants Not applicable Not applicable Not applicable Not applicable Not applicable</p>
--	---	---

2. Product uses 3. Hazards identification 4. First Aid measures 5. Fire fighting methods

<p>CC8– Dry Carpet cleaning powder is for the cleaning and restoration of all abused colourfast carpets and matting. It has built-in muscle power for the problem carpet. Badly abused, neglected carpets with entrenched stains and grime as found in pubs, clubs, terminals, restaurants etc, previously needed steam cleaning with high pH and high temperatures. Those methods may remove soiling and grime but it also carries risks, CC8 will not damage carpet or backing. CC8 is hospital grade with a built in bactericide (enough to deal with all pathogens). Which makes ideal for use in healthcare environments.</p>	<p>Hazard category... None Potential issues..... None known Risk phases..... None Safety phase..... Do not breathe Use well ventilated area Skin contact..... May cause degreasing of skin, dryness or cracking Eye contact..... Irritation due to contact Inhalation..... May cause irritation of nose and mouth Ingestion..... May cause gastric irritation</p>	<p>General Information No special measures required Skin Contact... Irrigate thoroughly with cold water. Seek medical attention if symptoms persist Eye contact... Irrigate thoroughly with cold water keeping eyelids open to ensure effective washing Seek medical attention if symptoms persist Inhalation... Remove person to fresh air, loosen clothing and seek expert help. Ingestion... <i>Small amounts:</i> wash mouth out with water and give lots of water to drink. <i>If large amounts</i> ingested medical advise should be sort Advise to Doctor... No Specific antidote treatments should be based on observed signs if signs of distress Scheduled poisons... Additional assistance can be provided from the poisons information Centre for each Australian Capital State Phone 13 11 26</p>	<p>Lower explosive limit... Not Applicable Basic fire fighting guidance... May present a slip hazard Anticipated hazardous product of combustion... Not applicable Extinguishing media... Use extinguisher to suit the cause of fire</p>

Date of issue: January 2019

9. Physical and chemical properties	10. Stability and Reactivity	11. Toxicology information
--	-------------------------------------	-----------------------------------

Appearance.....A moist, granular substance
Odour.....Natural citrus fragrance
PH..... Neutral
 Boiling point, Melting point, Flash point, Ignition temperature, Vapour pressure, Density and Solubility are not relevant to safety

This product is stable under normal conditions of use.
Conditions to avoid..... None
Materials to avoid..... None
Hazardous Decomposition products..... None

Inhalation of aerosols or dust resulting from inappropriate handling may induce sensitization and may cause allergic reactions in sensitized individuals. Prolonged skin contact may cause minor irritation this preparation is non-toxic

12. Ecological information	13. Disposal Considerations	14. Transport information
-----------------------------------	------------------------------------	----------------------------------

Ecotoxicity

Fish.....
 Low toxicity: LC/EC/IC50>100mg/l
Aquatic Invertebrate.....
 Low toxicity; LC/EC/IC50>1000mg/l
Algae.....
 Expected to have low toxicity: LC/EC/IC50>1000mg/l
Micro-organisms.....Low toxicity: LC/EC/C50>1000mg/l
 Which classifies the preparation as non-dangerous to the environment
 The preparation is Bio-degradable

No special disposal method required, except that in accordance with current local authority regulations

There are no specific transportation pre-cautions required. This product is not classified as a dangerous substance under the classification, packaging and labeling of dangerous substances regulations

15. Regulatory information	16. Other information
-----------------------------------	------------------------------

Dangerous Substances Directive 67/548 /EEC and Dangerous Preparations Directive 1999/45/EC:

These regulations do not apply to this product and therefore the product does not to labeled in accordance with EC laws

Information on label... S51 Use only in well ventilated areas
S26 In case of contact with eyes rinse immediately with plenty of water and seek medical advise

Recommended restrictions on use:..... Not Known
