

NO RINSING

GUM N GOO INSTRUCTION SHEET

GENERAL - REMOVING GUM & WAX FROM CARPETS etc.

1. Using **SCRAPER TOOL** remove any loose gum (or other) and pierce remaining hardened deposit with **SCRAPER TOOL** (being careful not to damage fabric underneath).
2. Squeeze out **GUM N GOO REMOVER** over deposit and agitate with **SCRAPER** blade in a backwards/forwards motion.
3. As deposit starts to dissolve remove with **SCRAPER** and discard onto **PAPER TOWEL** or similar
4. When all stickiness is removed, wipe away any remaining mark with **GUM N GOO** or **THAT'S AWESOME STAIN REMOVER** and a dry **TOWELLING CLOTH**.

ALSO REMOVES: grease, blu-tac, sillastic, ink, lipstick etc

REMOVING GLUE, STICKY TAPE etc FROM HARD SURFACES

1. Apply **GUM N GOO REMOVER** liberally over sticky area (leave to soften for 2-5 min)
2. Using **PLASTIC SCRAPER** or similar (credit card is ideal) work **GUM N GOO REMOVER** into sticky residue with circular motions from the outside in.
3. Apply more **GUM N GOO** or **STAIN REMOVER** to wipe remaining marks with a dry **TOWELLING CLOTH** until completely free from stickiness

WINDOW & VEHICLE STICKERS etc

1. Using **HEAT GUN** or similar, heat sticker and peel off surface (being careful not to cause damage to paintwork or window through over-heating)
2. For remaining sticky residue, follow previous steps 1-3 Above .
3. For extra stubborn residues, **GUM N GOO** may be used with car polish in approx 3:1 ratio. Mix on the surface and continue as with steps 1-3.
